

What have we been learning?

Week beginning: Monday 22nd January 2024

We have been learning our letters and sounds in phonics.

This week we have been learning that when the three letters 'i', 'g' and 'h' are placed next to one another they make the one sound 'igh'. This is called a trigraph seen in the word **night**.

night

How many words can you find which have the 'igh' sound in them?

sight

light

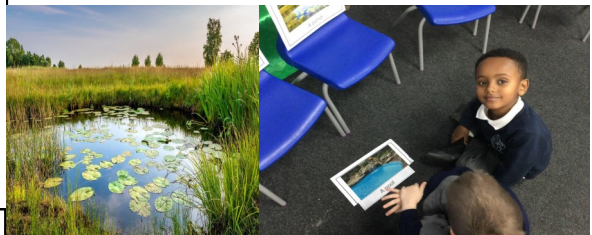

knight

Underwater environments

We have been enjoying naming the different types of underwater environments.

Reading

We have been practising our reading skills in reading practise, phonics and during our science lessons.

What does a lake, a river, a stream, a pond or a puddle look like?

How can you help your child with their learning?

- Encourage your child to find objects with the same sounds in them.
- Talk to your child about the stories they have read. Discuss the reasons why a character behaved in a certain way. What helped them solve their problem?
