

What have we been learning?

Week beginning: Monday 22nd April 2024

We have been learning our letters and sounds in our phonics lessons. This week in phonics we have been learning the ll and ff digraphs. These sounds have double letters.

We have been reading words with these sounds in them. They usually occur at the end of a word. Can you read these words correctly saying the long ll and ff sound?

Comparing heights

In Reception class. We have been learning to know when something is taller than something else.

We looked at lots of 'tall' and 'short' things in our environment. We found lots of tall trees and short flowers. There were also many tall buildings around us.

We enjoyed reading stories such as Jack and the beanstalk and Titch.

circle time

We have been learning to consider others feelings. Sometimes we may say or do something which may upset somebody else. We know that talking about how we feel is an important step in order to help us resolve our differences and helps us to feel better. We have been talking to our teachers and friends to help us do this with much success.

We discussed how we felt when we received good news. Lots of us felt happy, excited and even proud.

Snails, snails, snails!

Learning about minibeasts have been particularly intriguing. We enjoyed reading information books and using these to help us label the parts of a snails body. We realised a snail has a foot. Did you know this is a muscle which helps the snail slide across different surfaces?

How can you help your child with their learning?

Encourage your child to read books they have read before, follow their interest and select books which they want to read and talk about. Encourage your child to point to the words when they are reading and demonstrate the reading skills they have learnt.
