

What have we been learning?

Week beginning: Monday 28th April 2025

This week in phonics one of the sounds we have been learning was 'ow'.

This sound is usually at the end of a word.

bow

row

crow

1 more

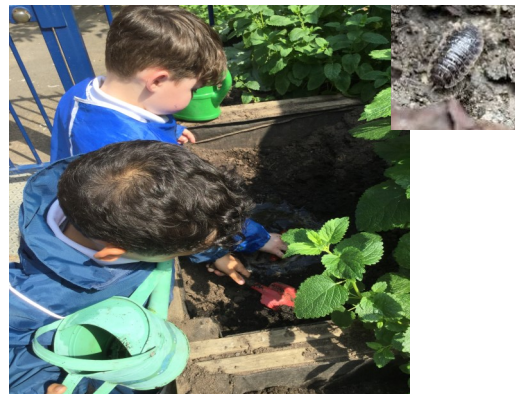

This week we used Numicon to find the person who had a Numicon which showed one more than we had. We made comparisons and counted on 1.

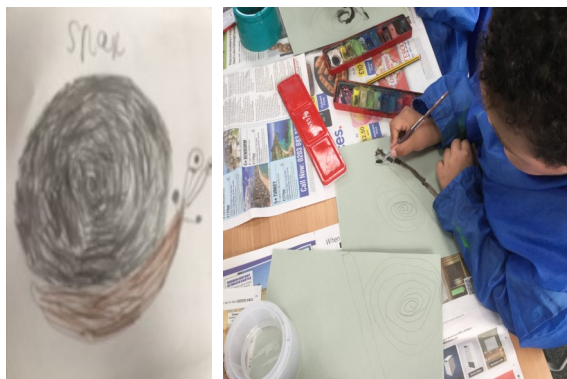

Minibeast homes

We have been learning about minibeasts habitats. This is where a minibeast lives. We carefully looked for minibeasts in dark places, under logs stones and leaves.

We observed some snails, drew and painted what they looked like. We were able to draw the snails spiral shell and the long eye tentacles.

How can you help your child with their learning?

Ask your child to count groups of everyday objects at home. Encourage them to talk about the differences in amounts. Are there more chairs than cushions? how many more or less? Are there enough chairs for everyone to sit on? How do they know?
