What have we been learning?

Week beginning: Monday 9th February 2026

Full Circle

We have been playing a phonics game called 'Full Circle' whereby we need to spell words using phonics letter cards until we return to the word we began with.

Amayah was able to segment and blend her sounds in words and write them al down independently. Well done Amayah!

It was very exciting and our teachers were impressed with how many words we could spell by using our phonic knowledge.

Physical Education

This week in our PE lesson we took part in a physical circuit, whereby we had to move between different activities. We practised jumping, balancing, crawling, running to develop our body skills and coordination.

We showed excitement for our learning and were praised for our confidence and perseverance in the challenges. We encouraged each other to keep trying.

The Gift of the Magi.

We have been learning to remember the special gifts of the Three Wise Men.

We have learnt that the gifts of Gold, Frankincense and Myrrh remind us of gifts we are to bring ourselves, We came together in an act of worship to remember to always love one another putting our best gifts forward.

Gold

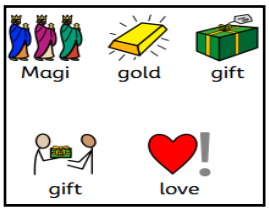

Frankincense

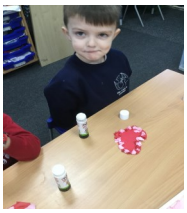

Myrrh

How can you help your child with their learning?

- Encourage your child to join in with physical games, to move speedily but look carefully to improve their coordination. Encourage them to run, skip, hop and jump then praise them for stopping and starting with accuracy.
