What have we been learning?

Week beginning: Monday 12th January 2026

We have been learning our letters and sounds in our phonics lessons. This week children are paying particular attention to their key words which we see often in simple sentences. Words such as 'the', 'was', 'in', 'am', 'and' & 'it'.
The importance of remembering how to write these words is key to help the children progress with their writing.

Maths - count

We have been learning to count and say how many we have counted. We have been learning to describe what we see and give reasons for our thoughts.

We could also say why things were the same or different when comparing objects using Maths vocabulary.

Where can you find water?

We have been learning to know where we could find water. We went on a water hunt around our school.

In the jug.

At the water fountain.

Through the outdoor taps.

In the water filter.
Down the drains.

Through the hosepipe.

On the ground after it had rained.

We were amazed at how many places water could be found. Water is vital to our daily lives, we cannot survive without it.

Don't let a little worry turn into a big one...
If you or your child are worried about something or have any questions, please phone the school office and book an appointment to see myself (Ms Boakye), Mr Withers or Mrs O'Reilly.
We are always really pleased to meet with you and chat things through.

How can you help your child with their learning?

Practise counting different groups of objects around your home. Help your child to count correctly saying one number name for each object they count. Talk about what has been counted. Are all the objects they same? How are they different?
