What have we been learning?

Week beginning: Monday 20th October 2025

We have been learning our letters and sounds in our phonics lessons. This week in phonics we have been learning the sounds ‘o’ and ‘g’.

How many words can you spot in these sounds in them?

Creative development

...an imagination is the ability of the mind to be creative and resourceful.

Department for Education

We have been practising our printing skills. Using different tools and materials to make patterns and shapes we created our own unique pictures.

We choose our own colours and tools we would like to use to express our ideas. Everyone was delighted with our creations.

Diwali

.

We have been learning about the Festival of Diwali. Also known as Hindu festival of light. We have celebrated the good, knowledge and hope that the festival Diwali reminds us of.

Mihira talked to us about her experiences of Divali. She made some wonderful Diva lamps at home and brought them in to show the class. Brilliant painting Mihira!

How can you help your child with their learning?

Ask your child to create a picture using everyday materials around your home. Allow them to express their ideas. Talk about the different materials chosen. What do they look like? How do they feel? How will you use them? What patterns do they make?
