What have we been learning?

Week beginning: Monday 26th January 2026

We have been learning our letters and sounds in our phonics lessons.

We have been learning our key words.

Why are the words below tricky?

Music

We have been enjoying our Music lessons. We have been listening to rhythms in different songs and learning to play different instruments to tap the beat.

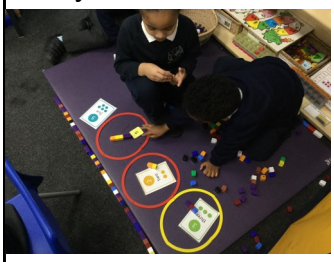

We really enjoyed playing the big base drum!

Calculating

We have been learning how to make five. We have been exploring our number bonds. How many ways can you make numbers 3,4 & 5? Which other numbers can you make?

We have been exploring using counters, lady birds and spots. We place a different number of spots on each side of the ladybird.

Then we calculated how any spots there were altogether.

shape

Can you describe circles and triangles?

Don't let a little worry turn into a big one...

If you or your child are worried about something or have any questions, please phone the school office and book an appointment to see myself (Ms Boakye), Mr Withers or Mrs O'Reilly.

We are always really pleased to meet with you and chat things through.

How can you help your child with their learning?

Engage in Maths activities at home. Encourage your child to collect different sorts of objects and look at their similarities and differences. Help your child group objects by the things that look the same and those which are not.
